PROFESSIONAL SUMMARY

Flutter Developer with 3 years building scalable, cross-platform mobile apps across social commerce, beauty, fitness, ride-sharing, agri-tech and enterprise. Delivered 13+ production apps, with 6 live on App Store and Google Play (Lyfuber, Fouta, BloodFit, Meghna). Expertise in clean architecture, Socket.IO real-time systems, and payments (Stripe, bKash, Nagad, ShurjoPay). Open to new full-time opportunities.

WORK EXPERIENCE

Software Engineer (Flutter)

Dec 2025 – Present

Sparktech Agency · Dhaka, Bangladesh

- Shipped production Flutter apps across social commerce, beauty, ride-sharing and fitness — published on App Store and Google Play.
- Built Socket.IO real-time features for multi-role communication (feeds, messaging and live order updates) in production apps.
- Owned Google Maps and geolocation flows for live tracking and location-based service discovery.

Software Developer (Flutter)

Oct 2023 – Nov 2025

Synergy Interface Ltd. · Dhaka, Bangladesh

- Delivered 6+ production Flutter apps for enterprise and government clients across insurance, agriculture and edtech.
- Applied Clean Architecture to keep feature modules modular and testable across multi-role codebases.
- Integrated bKash, Nagad and ShurjoPay payment gateways for digital premium and investment transactions in production.
