PROFESSIONAL SUMMARY

Flutter Developer with nearly 3 years building scalable, cross-platform mobile applications across social commerce, beauty, ride-sharing, agri-tech and enterprise sectors. Delivered 13+ production apps, 4 live on the App Store and Google Play. Expertise in clean architecture, real-time systems (Socket.IO), and secure payment integrations (Stripe, bKash, Nagad, ShurjoPay). Currently employed at Sparktech Agency — open to new full-time opportunities and freelance Flutter projects.

WORK EXPERIENCE

Software Engineer (Flutter)

Dec 2025 – Present

Sparktech Agency · Dhaka, Bangladesh

- Delivered 7 production apps (social, beauty, transport, utility) published on App Store and Google Play.
- Architected real-time data sync using Socket.IO, enabling seamless multi-role communication across user bases.
- Integrated Google Maps APIs for live location tracking and geo-based service discovery.

Software Developer (Flutter)

Oct 2023 – Nov 2025

Synergy Interface Ltd. · Dhaka, Bangladesh

- Developed 6+ production-grade Flutter apps for enterprise and government clients, including insurance and agriculture sectors.
- Applied Clean Architecture to produce modular, testable codebases, reducing onboarding time for new developers.
- Integrated bKash, Nagad and ShurjoPay gateways, enabling secure digital transactions for government insurance clients.

KEY PROJECTS (FULL CASE STUDIES AT [NURUJJAMAN-PORTFOLIO-SITE.VERCEL.APP/PROJECTS](#))

Presentini — City Discovery [\[App Store\]](#) [\[Play Store\]](#)

Flutter · Firebase · REST API · Geolocation

City discovery platform surfacing local events and specials, with location-based browsing, favorites and push notifications.

Fouta App — Social Commerce Platform [\[App Store\]](#) [\[Play Store\]](#)

Flutter · Firebase · Socket.IO · REST API

4-role system (user, seller, driver, admin) with real-time feeds, messaging and an end-to-end checkout & delivery pipeline.

TNP Beauty — Multi-role Beauty Marketplace [\[App Store\]](#) [\[Play Store\]](#)

Flutter · GetX · Stripe · REST API

3-role platform (Customer, Vendor, Beautician) with location-based discovery, Stripe payments and business verification.

Meghna Life Insurance — Advisor App [\[Play Store\]](#)

Flutter · bKash · Nagad · REST API

Dual-app suite for a government-linked insurer, replacing manual premium collection with a digital advisor workflow.
