

MD. NURUJJAMAN

Flutter Developer

mdnurujjaman329@gmail.com · +880 1957-073942 · Dhaka, Bangladesh · [Portfolio](#) · [LinkedIn](#) · [GitHub](#)

PROFESSIONAL SUMMARY

Flutter Developer with ~3 years delivering scalable cross-platform apps in social commerce, beauty, ride-sharing, agri-tech, and enterprise. 5+ production apps live on App Store and Google Play. Proven expertise in clean architecture, real-time systems, and secure payment integrations. Available immediately for remote or on-site roles.

TECHNICAL SKILLS

Languages: Dart, C, C++

Framework: Flutter

State Management: Bloc, Riverpod, GetX

Architecture: Clean Architecture

Backend: REST API, Firebase, Socket.IO

Payments: Stripe, bKash, Nagad, ShurjoPay

Features: Google Maps, Push Notifications, Deep Linking, Biometric Auth

Tools: Git, GitHub, VS Code, Figma, Postman

WORK EXPERIENCE

Software Engineer (Flutter) | Sparktech Agency · Dec 2025 – Present

- Delivered 7 production apps (social, beauty, transport, utility) shipped on App Store and Google Play.
- Architected real-time data sync via Socket.IO enabling seamless multi-role communication across user bases.
- Integrated Google Maps APIs for live location tracking and geo-based service discovery features.
- Drove code quality through reviews and performance optimisation across distributed teams.

Software Developer (Flutter) | Synergy Interface Ltd. · Oct 2023 – Nov 2025

- Developed 5+ production Flutter apps serving enterprise and government clients across multiple sectors.
- Applied Clean Architecture producing modular, testable codebases — reducing long-term maintenance cost.
- Integrated bKash, Nagad, and ShurjoPay payment gateways, replacing manual insurance premium collection.
- Optimised state management and REST API handling, improving performance and app responsiveness.

KEY PROJECTS

Fouta App – Social Commerce Platform [\[App Store\]](#) [\[Play Store\]](#)

Flutter · Firebase · Socket.IO · REST API

4-role system (user, seller, driver, admin) with real-time messaging, feeds, stories, and end-to-end checkout & delivery.

TNP Beauty – Multi-role Beauty Marketplace [\[App Store\]](#) [\[Play Store\]](#)

Flutter · Stripe · Geolocation · REST API

3-role platform (Customer, Vendor, Beautician) — location discovery, Stripe payments, earnings dashboards, multi-vendor cart.

Walkie [\[App Store\]](#)

Flutter · Firebase · Socket.IO

Real-time social communication app with instant messaging and live user interactions.

Perfect Catch [\[Play Store\]](#)

Flutter · Socket.IO · WebRTC · Firebase

Feature-rich dating app with real-time chat via Socket.IO and live video calling via WebRTC.

EDUCATION

B.Sc. Computer Science & Engineering

Dhaka City College, National University · 2018 – 2023 · CGPA: 3.18 / 4.00
